Work Experience

Apple Cupertino, CA

Software Engineer @Apple Intelligence Platform — Sept 2025 - Present

- Developed and maintained components for the iOS **Apple Intelligence Platform**, designed and implemented system-level APIs.
- Built **internal tooling** to support and streamline development and evaluation on the agentic platform.
- Created an **on-device scheduler** for resource management, prioritization, and timely execution of **LLM/multi-modal tasks**.

Software Engineer @Safari (iOS) — **2+ Years** | July 2023 - Sept 2025

- Developing and optimizing Safari browser components and features on iOS using UIKit, AppKit. **Objective-C** and **Swift**.
- Key contributor to DMA-related projects, ensuring smooth implementation and functionality across iOS system layers.
- Integrated **AI** and **Machine Learning** frameworks to deliver intelligent features within Safari, enhancing user experience.

Vagon.io Remote

Founding Frontend Lead — **2 Years** | Mar 2020 - Jan 2022

- Supervised and lead to Front End team to develop fast and reliable remote desktop controller application on web.
- Maintained and optimized full-stack applications, leveraging **React, Ruby on Rails, Postgre SQL, AWS, Docker**.
- Enhanced live streaming service performance **30%** using WebAssembly, WebSocket, TCP/IP, UDP protocols and browser APIs.
- Reduced monthly fraud cases **80%** by implementing improved payment systems with fraud detection, prevention methods.

Google San Francisco, CA

Software Engineering Intern — **3 Months** | Aug 2022 - Nov 2022

- Developed a tool to track and identify latency changes in **Google Cloud** products and diagnose potential bottlenecks.
- Implemented a **TypeScript** dashboard and Go back-end to aggregate billions of logs using SQL queries and visualize data.

Apple Cupertino, CA

Software Engineering Intern — **3 Months** | May 2022 - Aug 2022

- Collaborated and engineered solutions on the **Safari** team. Solved **Safari macOS** and **WebKit** bugs using **Objective-C**.
- Designed, proposed and implemented new features for the upcoming major release of Safari, used by **20%** of whole user base.

Mozilla / Firefox Devtools Remote

Open Source Contributor — **3 Months** | Jan 2020 - Mar 2020

- Identified and fixed bugs on Github and Bugzilla(Phabricator) under **Firefox** projects, mainly on **Firefox Devtools** and Gecko.
- Reworked Firefox reader mode design with Sketch and integrated reader-specific buttons to work with browser settings.

Zeplin.io (Y Combinator 2015 Batch) Istanbul, Turkey

Software Engineer — **1+** | Jun 2019 - Aug 2020

- Designed **React front-end and Electron** applications and developed components that are used across all applications.
- Led a performance overhaul, redesigning architecture to reduce code redundancy and increasing Profile Page loading speed by approximately **30%** and**10%**, respectively.

Trendyol.com Istanbul, Turkey

Software Engineer Part-time — **5 Months** | Jul 2018 - Dec 2018

- Developed web services for seller interface of e-commerce application using **Java Spring Boot, REST API, Kubernetes**.

Education

Georgia Institute of Technology (GaTech) Atlanta, US

M.Sc Computer Science — Aug 2021 - May 2023

GPA 4.0 / 4.0 | **Coursework:** Adv. Machine Learning Systems, Distributed Systems, Big Data Sys, and Advanced Internet Sys.

Koc University Istanbul, Turkey

B.S. Computer Eng. Major and Electrical&Electronics Eng. Double Major — Oct 2015 - May 2021

Technical University of Munich (TUM), Germany and **Nanyang Technological University (NTU), Singapore Exchange Student**
Received 100% scholarship which is given to **top 300(%0.01)** among 2 million students.

Patents

Patent Application (Filed, Pending) 2025 — Co-Inventor. System and method for intelligent interface organization using on-device AI in large-scale consumer software platforms (Apple Inc.).

Program Committees

2025 **Judge / Jury Member - Apple Swift Student Challenge (2025)**, Selected by Apple to evaluate global student submissions based on technical quality, creativity, and execution.

Projects

Senior Design Project | ugrad.co — Best CS Project Award, Fall21

Private Social Network for Schools — Mar 2021 - Jun 2021

- Led a team of 4 people to design and publish a social network for university communities that provides total anonymity.
- Programmed fast and secure back-end, and designed NoSQL database models using Node.Js, Express, MongoDB, and AWS.

Senior Design Project | fundeus.xyz — Best EE Project Award, Spring20

Eye Disease Classification System — Oct 2020 - Jan 2021

- Implemented Machine Learning algorithms that can classify cataract, glaucoma, and diabetic retinopathy from fundus images.
- Designed the overall scalable cloud architecture and prepared front-end, back-end of the project using React, Python, and AWS.

Skills

Programming Languages	C / C++, Objective-C, Swift, TypeScript, Kotlin, WebAssembly, HTML, CSS
Web & Application Development	UIKit, SwiftUI, AppKit,React, Node.js, GO
Development Tools	Xcode, Instruments, Firefox Profiler, Safari, Firefox, and Chrome developer tools, Sketch, Keynote

Extracurricular Activity

Stanford University Design School — Stanford University

University Innovation Fellow — Oct. 2019 - 2021

- Concluded a 7-week-long design thinking and innovation course at Hasso Plattner Institute of Design (d.school).
- Was **section leader** of a **Java teaching** program for 2 summers directed by Nick McKeown at Stanford.

Honors & Awards

2019-2020	**Pixery & Ciceksepeti Hackathon Best Project Award**, Qualified **1st** among 30 teams
2015	**Ranked 273rd (top 0.01%) among 2+ million Students**, Turkish University Attainment Exam
2011	**Ranked 1st (top 0.0001%) among 1+ million Students**, Turkish High School Attainment Exam
